

In regards to LPFM expansion that would result in the loss of K-LOVE stations, I would like to say that K-LOVE is not only music to listen to, it also serves the community with announcements and encouraging comments and news. If K-LOVE is displaced by another program, we would lose the type of music we prefer to listen to which is non offensive to us. They have no offensive comments or commercials which make it perfect for family listening. This is important not only for our family but obviously to the thousands of listeners who support K-LOVE and their mission. Sincerely,

Shayna Staley
